

888212 Gynaecology Set

Wide range of designs with different features for gynaecology interventions

Product details

Product group name: Gynaecology drapes and sets

Sterile: Sterile

Brand: BARRIER®

Product descriptions

Short description: Wide range of designs with different features for gynaecology interventions

Long description: Procedure-specific gynaecology drapes with effective solutions for fluid management.

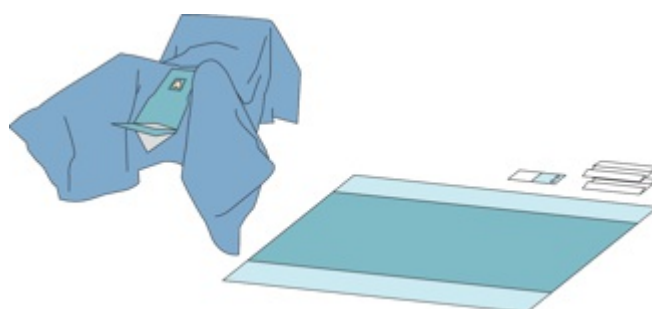

Made from an impermeable material, BARRIER® drapes help to prevent microbial transfer.

Where necessary, our drapes have integrated fluid collection pouches and high absorbency for a dry working area.

- Wide range of drapes and sets with different features to meet different needs.
- Self-adhesive edges around the genitalia opening for secure seal off of surgical area.
- Some designs with integrated fluid collection pouch for effective fluid management.
- Leggings may be integrated or separated - some designs with transparent sides for visibility.
- Folded and packaged for easy, aseptic application by one person.
- Our drapes can be included in Mölnlycke® ProcedurePak® trays to support operating room efficiency.

For gynaecology drape for laparoscopic procedures please see Laparoscopy drapes and sets.
