PLASTI-PAN II

COMMODE TYPE SPECIMEN COLLECTOR

Plastipan II provides a convenient and accurate method of collecting and measuring urine output.

- **STURDY**
  Made of virtually unbreakable polypropylene.
- **EASY TO MEASURE**
  Will measure small amounts of urine.
- **EASY TO READ**
  Graduations clearly engraved in large numbers. Graduated in both ounces and cubic centimeters.
- **LARGE COLLECTION AREA**
  Back wall angled at 30° increases surface area to assure complete collection and accurate measurement of specimen.
- **BACK TO BACK COLLECTION**
  Pans may be placed back to back in toilet bowl to allow simultaneous collection of stool and urine.
- **EASY POURING**
  Functional pour spout allows accurate pouring into smaller containers.
