

## KLINION - Body Cream 70%

### Description

Specialized body cream with 70% fat content for very dry skin and skin with eczema. pH 4,8  
 The Klinion Personal Care Body cream is specially created for dry skin and skin with eczema, where particularly fatty creams are needed. It maintains the elasticity and moisture level of the skin. The high fatty content of 70% prevents roughened and cracked skin. This body cream can be applied anywhere on the body as required, in particular on problematic areas such as hands, feet or face. It prevents the skin from drying out when exposed to cold temperatures.

### Product information

In compliance with: Cosmetic product regulation EC 1223/2009

### Features

- Nordic Swan Eco-label
- Perfume-free
- Available in 3 different sizes; 30, 100 and 200 ml
