Sealing film for manual application, Parafilm®

M

Leverantör: Heathrow Scientific

Parafilm® M is a semi-transparent, flexible, thermoplastic film with two-way stretch. This odourless and colourless film provides a tight, moisture-proof seal.

- ▶ Non-toxic and free from plasticisers
- ▶ Primarily composed of polyolefins and paraffin waxes offering good resistance against acids, alkalis and some organic solvents*
- ▶ Will stretch 200% and adhere to irregular shapes and surfaces to provide a secure seal
- ▶ Disposable

Parafilm® is a registered trademark of Bemis Company, Inc.

Observera: *Use not recommended with acetone, diethyl ether or tetrachloride
