

Ambu® Cuff Pressure Gauge

Key Benefits

- Ergonomic and robust design
- Standard Luer connection ensures compatible with most laryngeal masks
- Graded in cm H₂O
- Easy-to-use inflation bulb and release valve
- Large dial for optimum display
- Not made with natural rubber latex

Ambu® Cuff Pressure Gauge

The Ambu Cuff Pressure Gauge is used for inflation, deflation and pressure control of laryngeal masks and tracheal tubes with high volume, low-pressure cuffs.

The dial has two zones of highlighted pressure areas grade in cm H₂O for optimal visibility during use.

The Luer connection allows the gauge to be connected to laryngeal masks or intubation tubes, either directly or via the connecting tube.

The Ambu Cuff Pressure Gauge has an ergonomic design and is easy to operate, thanks to the integrated inflation bulb and release valve.

It addresses the particular needs of anaesthesia and resuscitation services.

Specifications

Specifications	
Dimension (length x width x height)	162 x 76 x 80 mm
Diameter of dial	68 mm
Weight	148 g
Tubing connection	Luer type
Length of tubing	100 cm

Materials

Product	Material
Inflation handle	phthalate free PVC
Dial	Aluminium/Copper/Silicone
Suspension hook	Polyamide
Tubing	phthalate free PVC
Pressure adjustment button	Copper/Polyamide
Transparent dial cover	Polycarbonate

Ambu® Cuff Pressure Gauge
connected to Ambu® AuraOnce

Ordering specifications

Item no.	Type
321 900 000	Ambu Cuff Pressure Gauge
321 000 702	Tube for Cuff Pressure Gauge, 1 m (disposable)
