BIANCA

PRODUCT DESCRIPTION

Bianca bra is designed for the time following a surgical procedure to the breast, when the skin is tender, sensitive and where support is recommended. The bra effectively fixate bandages and wound dressings worn in the post surgical phase. With a high back it provides support to the upper spine. The Bianca bra support the users breasts during the recovery phase and ensuring optimal user comfort. A seamless design ensures no pressure is exerted on the wound and scar area. As the bra does not contain metal parts it is suitable to wear during diagnostic imaging. With the front opening it is easy to apply the bra and it allows easy examination of the surgical site.

PRECAUTIONS

- Follow the Instructions for Use
- Follow your surgeon's recommendations regarding use and fitting
- If any unexpected discomfort or wound irritation occurs, remove the Post-Surgical Bra and contact your surgeon
- The Post-Surgical Bra is not intended for direct contact with injured skin or mucous membrane
- Make sure that bandages, textile breast prosthesis and/or drainage tubes are placed correctly to avoid pressure points and/or obstructed flow
- Wearing an undersized Post-Surgical Bra may cause local pressure pain and disruption of blood flow and/or lymphatic flow
- Wearing an oversized Post-Surgical Bra may reduce the clinical effect
- Use the Post-Surgical Bra according to medical indication to avoid injury or damage.
- The device may contain traces of softening and antistatic agents.

FEATURES

- Front closure with hook & loop
- Wide shoulder straps
- High back for rear thoracic support
- Tested for harmful substances according to OEKO-TEX STANDARD 100

INDICATIONS

For use 24 hour per day following; Mastectomy, and lumpectomy. Can be used in radiotherapy period.
