

## KLINIDERM - FOAM SILICONE BORDER

### Description

Adhesive foam silicone dressing. For the treatment of chronic and acute wounds. The foam dressing is soft, comfortable and absorbent. Creates the ideal environment for moist wound healing and avoids adherence to the wound surface. The skin-friendly, adhesive dressing enables an optimal fixation. Medical device. Sterile if pouch and seal are intact.

### Product information

In compliance with: MDD (EU) 93/42/EEC Class IIb
