Precise • Reliable • Safe

# Klinion® eco medicine cups and lid

We believe in caring for both our patients and our planet. Our Klinion® eco medicine cups and lid are designed with sustainability at their core, incorporating up to 40% recycled material. The product range of medicine cups is available in 5 colours (transparent, blue, red, green and yellow) and a compatible writable lid. The Klinion® eco medicine cups range meets the future demand of more environmental friendly products, while maintaining the patients' and nurses' needs, where the right dosage is most important!

## Redefining sustainable healthcare with every dose

### Reduced environmental impact

Made of Polypropylene (PP), BPA free and completely recyclable. Made from up to 40% recycled materials, reducing environmental impact, promoting a circular economy.

### Versatile and practical

The cups are designed for dispensing liquids and pills, making them the perfect solution for hospitals, clinics, and home care settings. Stackable design for efficient storage.

### Precise measurement

30 ml medicine measure graduated each ml. Easy-to-read measurements ensure accurate dosing, enhancing patient safety and care quality.

### High-Quality standards

Manufactured to meet strict healthcare industry standards, ensuring reliability and safety. Classified as a Class IM medical device. Non-sterile, single-use design for convenience and hygiene.
