5269	Klinion Pen Needle 0,23 mm 32G x 8 mm	32G	110	4400

*Sizes are approximate

Features

- All lengths and gauges now have a 5-bevel point. This makes needle insertion easier and therefore less painful.

Product Specifications

- It is a single-use; double-ended, sterile needles for needle-based injection systems (NISs) that fulfil the specifications of ISO 11608-1.
- This device is constructed as a double-ended, stainless steel needle of various sizes that is with a threaded hub of plastic.
- It is packaged in a sealed sterility barrier, and the needle is lubricated with lubricant.

Product components

Component	Material
Needle container	Polypropylene (PP)
Hub	Polypropylene (PP)
Needle shield	Polyethylene (PE)
Needle tube	X5CrNi18-10
Lubricant	Silicon oil (Polydimethylsiloxane)
Needle tip	3 bevels, 5 bevels

Materials of concern are chemicals or substances that have been identified as having the potential to cause long-term effects on humans of the environment

Material	Comment
Phthalates	No phthalates intentionally added
DEHP	No DEHP intentionally added
Medicinal Substance	The products do not contain medicinal substance
Carcinogenic substance	The products do not contain carcinogenic substance
Toxic chemical	The products do not contain toxic chemical
Latex	The products do not contain natural latex
Substances of animal origin BSE/TSE	The products do not contain substance of animal origin BSE/TSE
Polyvinyl chloride (PVC)	The products do not contain polyvinyl chloride

Sterilization

Ethylene Oxide Sterilization following EN ISO 11135.

Product Specifications

Storage conditions

Store your insulin pen needles in cool and dry place.

Shelf life

5 years
